

**2017-2018 Student Chapter Application**

The Our Children, Our Future Campaign to end child poverty is a non-partisan coalition of over 177 organizations. We do not fight for specific candidates or political parties, we fight for the issues that matter to young people. We have had 21 policy victories which range from decreasing youth incarceration to increasing physical activity in our schools. Through our student chapters, students get involved in local issues/projects (like community gardens/voter registration drives), register voters, hold candidate forums, and work to achieve state level change.

Important note: OCOF Student Chapters can be existing student organizations (like SADD chapters or HSTA clubs), or they can be brand new clubs.

*We invite your student organization to become an OCOF student chapter*
